telephones and the auxiliary apparatus, by F. C. Allsop; and "Practical work in Organic Chemistry," by Fredk. Wm. Streathfield, with a prefatory notice by Professor R. Meldola.

— An ephemeris for the use of members of the astronomical department of the Brooklyn Institute, July to December, 1891, prepared by the executive committee of the department, has just been issued by the Institute. Garrett P. Serviss, president of the department, says that the purpose of the ephemeris is to present in a convenient and readily accessible form information about variable stars, meteors, occultations, and other phenomena, with the hope that many may be induced to undertake observations which will certainly prove to be interesting to the observers, and cannot fail to be valuable to the department by giving a definite direction to the efforts of its members. The greatest charm of the starry heavens is felt only by those who study them systematically, but for that purpose an observatory, and even a telescope, is

not essential. With an opera-glass, and with the naked eye, many of the most interesting phenomena of the sky may be satisfactorily and usefully observed. Arrangements have been made to furnish special information and assistance to observers at the meetings of the department, which will be resumed in October, and in the meantime members are requested to observe, in any way that may suit their convenience, the phenomena to which attention is called in the ephemeris, and to make notes of their observations. The president of the department will be particularly obliged if members will, at their earliest convenience inform him, by letter or otherwise, of their intention to undertake any of the observations recommended. Any request for additional information or advice will meet with prompt attention. It is intended to make the department of astronomy one of the foremost in the Brooklyn Institute, both in the attractiveness of its meetings and in its general influence, and every member who undertakes any of these observations will give material assistance to that end.

Exhaustion

Horsford's Acid Phosphate.

The phosphates of the system are consumed with every effort, and exhaustion usually indicates a lack of supply. The Acid Phosphate supplies the phosphates, thereby relieving exhaustion, and increasing the capacity for labor. Pleasant to the taste.

Dr. A. N. KROUT, Van Wert, O., says:

"Decidedly beneficial in nervous exhaustion."

Dr. S. T. NEWMAN, St. Louis, Mo., says:

"A remedy of great service in many forms of exhaustion."

Speech Reading and Articulation Teaching.

By A. MELVILLE BELL.

Price, 25 Cents.

Practical Instructions in the Art of Reading Speech from the Mouth; and in the Art of Teaching Articulation to the Deaf.

[This Work—written at the suggestion of Miss Sarah Fuller, Principal of the Horace Mann School for the Deaf, Boston, Mass.—is, so far as known, the first Treatise published on "Speech Reading."]

From Principals of Institutions for the Deaf.

"Admirable in its conciseness, clearness and freedom from technicality."

"The simplicity and perfection of this little book."

"Full of exact and helpful observations."

"A very interesting and valuable work."

"The rules are clearly given and will be of great utility."

"Every articulation teacher should study it."

"A model of clearness and simplicity, without having any of the puzzling symbols that trouble the common mind. The exercises given in speech-reading from the lips are especially interesting, and of great importance for the student of phonetics."

"The story is a piquant, good-humored, entertain-
ing narrative of a canoe voyage. A neater, prettier
book is seldom seen."—*Literary World*

"This is a sprightly narrative of personal inci-
dent. The book will be a pleasant reminder to
many of rough experiences on a frontier which is
rapidly receding."—*Boston Transcript*

"The picture of our desolate North-western terri-
tory twenty-five years ago, in contrast with its
civilized aspect to-day, and the pleasant features of
the writer's style, constitute the claims of his little
book to present attention."—*The Dial*

BY THE SAME AUTHOR. RACES AND PEOPLES.

"The book is good, thoroughly good, and will long
remain the best accessible elementary ethnography
in our language."—*The Christian Union*

"We strongly recommend Dr. Brinton's 'Races
and Peoples' to both beginners and scholars. We
are not aware of any other recent work on the
science of which it treats in the English language."
—*Asiatic Quarterly*

"His book is an excellent one, and we can heartily
recommend it as an introductory manual of ethno-
logy."—*The Monist*

"A useful and really interesting work, which de-
serves to be widely read and studied both in Europe
and America."—*Brighton (Eng.) Herald*

"This volume is most stimulating. It is written
with great clearness, so that anybody can under-
stand, and while in some ways, perforce, superficial,
grasps very well the complete field of humanity."
—*The New York Times*

"Dr. Brinton invests his scientific illustrations and
measurements with an indescribable charm of nar-
ration, so that 'Races and Peoples' avowedly a re-
cord of discovered facts, is in reality a strong stim-
ulant to the imagination."—*Philadelphia Public
Ledger*

"The work is indispensable to the student who re-
quires an intelligent guide to a course of ethno-
graphic reading."—*Philadelphia Times*

THE MODERN MALADY; or, Suf- ferers from 'Nerves.'

An introduction to public consideration,
from a non-medical point of view, of a con-
dition of ill-health which is increasingly
prevalent in all ranks of society. In the
first part of this work the author dwells on
the errors in our mode of treating Neurast-
henia, consequent on the wide ignorance of
the subject which still prevails; in the sec-
ond part, attention is drawn to the principal
causes of the malady. The allegory forming
the Introduction to Part I. gives a brief his-
tory of nervous exhaustion and the modes of
treatment which have at various times been
thought suitable to this most painful and try-
ing disease.

Fact and Theory Papers

I. THE SUPPRESSION OF CON- SUMPTION. By GODFREY W. HAMBLETON, M.D. 12°, 40c.

"The inestimable importance of the subject, the
eminence of the author, and the novelty of his work,
all combine to render the little treatise worthy of
special consideration. . . . We heartily commend
Dr. Hambleton's booklet, and wish there were more
such works."—*Editorial, Boston Daily Advertiser*

"The monograph is interesting in style, scholarly,
and well worthy of careful consideration. It is de-
void of technical expressions, and can be easily read
and digested."—*Pharmaceutical Era*

II. THE SOCIETY AND THE "FAD." By

APPLETON MORGAN, Esq. 12°, 20 cents.

"Mr. Morgan founds a sensible and interesting
address upon a text furnished by a sentence from
a young ladies' magazine; namely, 'Browning and
Ibsen are the only really dramatic authors of their
century.'"—*New York Sun*

III. PROTOPLASM AND LIFE. By C. F. COX. 12°, 75 cents.

"To be commended to those who are not special-
ists."—*Christian Union*

"Physicians will enjoy their reading, and find in
them much food for thought."—*St. Louis Medical
and Surgical Journal*

"Mr. Cox reviews the history of his subject with
knowledge and skill."—*Open Court*

"It is of extreme interest."—*Medical Age*

"Worthy of a careful perusal."—*Indiana Medical
Journal*

"An interesting and popular account of the ten-
dencies of modern biological thought."—*Popular
Science News*

"All interested in biological questions will find
the book fascinating."—*Pharmaceutical Era*

"The author displays a very comprehensive grasp
of his subject."—*Public Opinion*

"Deserves the attention of students of natural
science."—*Critic*

IV. THE CHEROKEES IN PRE-CO- LUMBIAN TIMES. By CYRUS THOMAS. 12°, \$1.

Dr. Thomas has already presented to the public
some reasons for believing the Cherokees were
mound-builders, but additional evidence bearing
on the subject has been obtained. A more careful
study of the Delaware tradition respecting the Tal-
legwi satisfies him that we have in the Bark Record
(Walam Oum) itself proof that they were Chero-
kees. He thinks the mounds enable us to trace back
their line of migration even beyond their residence
in Ohio to the western bank of the Mississippi. The
object is therefore threefold: 1. An illustration of
the reverse method of dealing with prehistoric sub-
jects; 2. Incidental proof that some of the Indians
were mound builders; 3. A study of a single tribe
in the light of the mound testimony. This work will be
an important contribution to the literature of the
Columbian discovery which will doubtless appear
during the coming two years.

"A valuable contribution to the question, 'Who
were the mound-builders?'"—*New York Times*

"Professor Cyrus Thomas undertakes to trace
back the evidences of a single Indian tribe into the
prehistoric or mound-building age."—*N. Y. Sun*

"An interesting paper."—*Christian Union*

V. THE TORNADO. By H. A. HAZEN. 12°, \$1.

"The little book is extremely interesting."—*Bos-
ton Transcript*

"A book which will find many readers. The
chapter on 'Tornado Insurance' is of interest to
all property-holders in the tornado States."—*Boston
Herald*

"The Tornado' is a popular treatise on an im-
portant province of meteorology in which science, the
author, Professor Hazen of the United States Sig-
nal Service, may be regarded as an expert."—*Philadel-
phia Ledger*

VI. TIME-RELATIONS OF MENTAL PHENOMENA. By JOSEPH JASTROW. 12°, 50c.

"All students of psychology will find the book full
of interesting facts. Professor Jastrow's good qual-
ities as a thinker and as a writer are too well and
too widely known to require comment."—*Public
Opinion*

"A useful work for psychologists—as well as the
general reader—by setting forth in brief and easily
intelligible form the present state of knowledge in
regard to the time required for the performance of
mental acts."—*The Critic*

VII. HOUSEHOLD HYGIENE. By

MARY TAYLOR BISSELL. 12°, 75 cents.

"A sensible brochure."—*Brooklyn Eagle*

"Practical and sensible."—*Public Opinion*

"The advice and excellent information which it
contains are tersely and intelligently expressed."—
Boston Medical and Surgical Journal

"Practical and simply written."—*Springfield Re-
publican*

"The best monograph on home hygiene."—*St.
Louis Globe-Democrat*
